

REBBL Press Kit

Year Founded:

2013

Location:

Emeryville, CA (Bay Area)

Founders:

Dave Batstone (Not for Sale) & Palo Hawken

Company Overview:

REBBL curates the best of the Plant Queendom into deliciously nourishing super herb elixirs to nourish and vitalize life's every day journey, empower growers and farmers, honor the planet, and co-create a future without human trafficking. Celebrating traditional super herb wisdoms refined over millennia which are only now being openly shared, studied and embraced globally, every bottle of REBBL is certified organic, soy and dairy-free, gluten-free, GMO-free, and made without cane sugar, carrageenan, thickeners, artificial flavors or agave.

REBBL was born out of a conscious collaboration between global thought-leaders, who sought out to address the malfunctioning global food system through a regenerative business model that would respect, uplift, and delight the world. REBBL donates 2.5 percent of all net sales to Not For Sale to support regions of the world that are vulnerable to exploitation and human trafficking. Through impact sourcing, REBBL helps communities to thrive and prevent their vulnerability to trafficking in the first place. REBBL recently became a Certified B Corporation, meeting the highest standards of verified social and environmental performance, public transparency, and legal accountability to balance profit and purpose.

Impact Mission:

REBBL was founded by a non-profit organization whose mission is to fight human trafficking. To this day, REBBL works with Not For Sale to co-create a future without human trafficking through awareness, prevention, and support, while also addressing climate change -- two problems that are inextricably linked. REBBL give 2.5% of the net sales of every bottle sold to Not for Sale to rehabilitate survivors of trafficking. As of 2018, REBBL has donated more than \$754,000 to Not for Sale. REBBL was created to be, and continues to be, a mechanism to leverage market forces for the empowerment of indigenous communities.

Products:

REBBL is a leader in the functional beverage category, offering nourishing plant-based super herb elixirs.

As a super herb beverage pioneer, REBBL soulfully crafts exquisite-tasting, nutrient-dense drinks that are organic, non-GMO, and free of flavor chemicals, gums, thickeners and carrageenan. Every bottle utilizes super herbs at meaningful, efficacious levels, delivering them in indulgent flavors for a deeply nourishing experience at every occasion—whether that be a midday pick-me-up or a post workout fuel.
